Re: Telemarketing rulemaking – comment  
FTC File No. R411001

Dear FTC:

We would like to go on record as supporting legislation restricting the telemarketing industry.

We would **support the national non-call list**. In fact there should not have to be a non-call list, rather telemarketers should require permission to have us accept calls.

We would **eliminate auto dialers**.

We would mandate telephone companies to **make these calls block-able** at no charge to its customers. After all it's the phone companies who make money off of all these calls.

Further we support any and all additional restrictions on this industry, which has **turned a home convenience into an annoyance**. After repeated marketing calls and auto dialer hang-ups I have ignored the phone only to miss calls I needed to receive!

Please help us!

Sincerely,

Craig & Kathleen Turner
